

Subject: EBP-EAP Exam on 17 Nov 2026 | Applications are NOW open!

Greetings,

We hope this email finds you well. We are excited to inform you about the upcoming European Board of Paediatrics - European Academy of Paediatrics Exam (EBP-EAP Exam) taking place on **17 November 2026**. Applications are open! The deadline to apply is midnight (CET) 31 October 2026.

We are proud to announce that the EBP-EAP Exam is **CESMA accredited!**

Apply for the exam [here](#) or copy and paste this link into your browser:

<https://eap.mcqonline.y-congress.com/PersonalSpace/?authprovider=keycloak>

The EBP-EAP Exam is an annual online assessment that evaluates the foundational knowledge required for paediatric training: <https://www.eapaediatrics.eu/about-ebp-eap-exam/>. The EAP is also running a preparatory [Core Knowledge in Paediatrics Course](#) (online) on 16 & 17 October 2026. **Approved exam applicants will be able to register for the CKP Course at an exclusive fee of only EUR 100.**

#### **Benefits of taking the EBP-EAP Exam:**

- **Demonstrate Your Training Level:** Passing the exam is a valuable indicator of your training level and recognised throughout Europe, since the certificate demonstrates that your theoretical knowledge of paediatrics has achieved a level to satisfy the UEMS.
- **Comprehensive Performance Review:** The EBP-EAP Examination features an enhanced results display! Examinees receive a comprehensive review of their performance, including an overall score comparison with peers, section-by-section performance summaries, and detailed topic-specific analyses. Identify strengths and areas needing improvement, which will ultimately aid every examinee in the refinement and enhancement of their paediatric knowledge.
- **Enhance Your Professional Profile:** The certificate from this exam validates your expertise and dedication to continuous learning.
- **Broaden Your Opportunities:** The EBP-EAP Exam may open doors to various career prospects within Europe. Although no country is obliged to accept it as proof of ability, it is taken by candidates from a wide range of European countries - some of whom are considering using or already using the exam as their national exam. Passing this exam is likely to add weight to any application that you make for a training post. Note: The exam

does not constitute Board certification and you will need to ask individual countries and establishments what evidence they want of your training, as they are not bound by the results of this exam. Passing the EBP-EAP exam does not guarantee employment or entry into any European country, and recognition by national medical bodies is not guaranteed.

If you have any questions or need assistance, you can contact the examination coordinator, Frida van Niekerk, at [ebpexam@eapaediatrics.eu](mailto:ebpexam@eapaediatrics.eu).
